No. 1 (21) 2009 The Magazine of the Polish Academy of Sciences

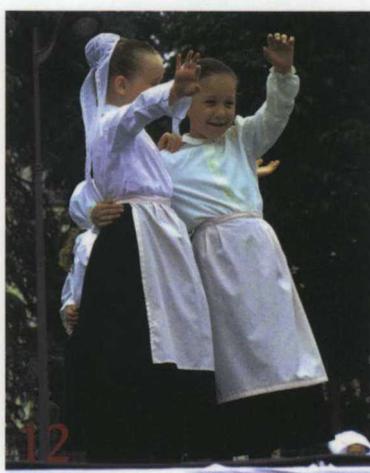

Focus on

## Toxic Fats

A. Dobrzyń

Metabolic diseases are caused not by over-developed fat tissue, but by lipids accumulated in other tissues

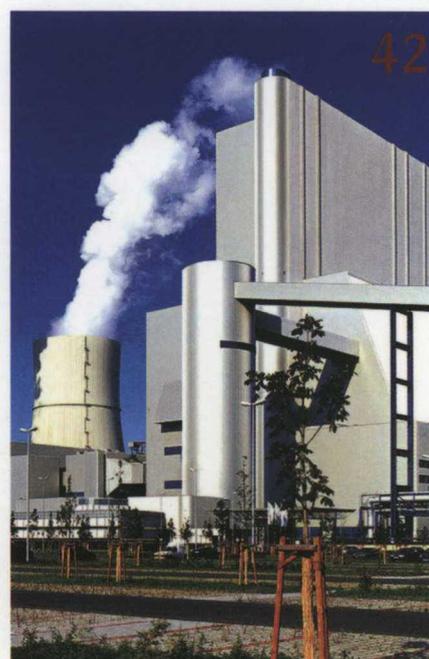

Focus on

## Dying Languages?

N. Dołowy-Rybińska, J. Zieniuk

Many European countries are seeing resurging interest in minority languages. Will current policies help them to survive?

Briefly Speaking

## Climate Facts and Possibilities

Z. Kundzewicz, E. Mokrzycki

We need to fight climate change and its ominous consequences. But what measures should be taken, and can we afford them?
