# ARCHIVES of ACOUSTICS

QUARTERLY, Vol. 49, No. 2, 2024

## In Memoriam

- |                                    |     |
|------------------------------------|-----|
| Professor Andrzej Stepnowski ..... | 151 |
|------------------------------------|-----|

## Research Papers

- |   |     |
|---|-----|
| A. Stefanowska, S.K. Zieliński, <i>Speech emotion recognition using a multi-time-scale approach to feature aggregation and an ensemble of SVM classifiers</i> .....   | 153 |
| Z. Ye, J. Peng, X. Zhang, L. Song, <i>Snoring sound recognition using multi-channel spectrograms</i> .....  | 169 |
| Y. Aldholmi, <i>Statistical metrics for the temporal acoustics of durationally contrastive vocalics: A proposal tested with data from Arabic and Japanese</i> .....   | 179 |
| R. Stępień, P. Wrzeciono, <i>Assessment effects of humidification of guitars by complexity measures of the sound level during sustain</i> .....   | 189 |
| T. Sun, Z. Zhou, D. Peng, <i>Research on the motion features model for underwater targets with multiple highlights and multiple micro-motion forms</i> .....  | 199 |
| F. Yang, Z. Peng, H. Song, Y. Tang, X. Miao, <i>A hybrid finite element method (FEM) – Kirchhoff approximation (KA) method for modeling acoustic scattering from an underwater vehicle model with Alberich coatings with periodic internal cavities</i> ..... | 209 |
| G. Zheng, X. Guo, F. Zhu, F. Wang, L. Bai, <i>Analysis of bottom reverberation intensity under beam-controlled emission conditions in deep water</i> .....  | 221 |
| L. Lv, F. Liu, Y. Li, <i>Numerical study on the dynamics of a charged bubble in the acoustic field</i> .....  | 233 |
| B. El Kharas, M. Garoum, A. Bybi, <i>Effect of acoustic enclosure on the sound transmission loss of multi-layered micro-perforated plates</i> .....   | 241 |
| S. Mackiewicz, Z. Ranachowski, T. Katz, T. Dębowksi, G. Starzyński, P. Ranachowski, <i>Modeling of acoustic coupling of ultrasonic probes for high-speed rail track inspection</i> .....  | 255 |
| N. Tan, X. Yan, B. Liu, <i>Improving sound insulation in low frequencies by a three-component cladding acoustic metamaterial panel</i> .....  | 267 |
| A. Cichoń, S. Borucki, M. Włodarz, <i>Comparative analysis of acoustic emission signals from on-load tap-changers for potential detecting of non-simultaneous operations</i> .....  | 277 |

## Technical Note

- |  |     |
|--|-----|
| S.-I. Kang, K.-S. U, K.-C. Choe, Y.-K. Ri, H.-I. Kye, <i>A side lobe level reduction method using simulated annealing algorithm in a uniform arc array</i> ..... | 287 |
|--|-----|
